

Premium 25ft Outdoor WiFi Antenna Cable

APC25EX

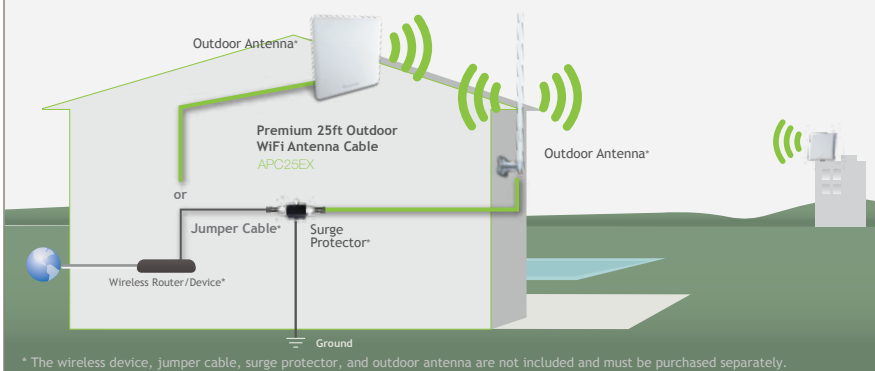

OUTDOOR SERIES

The Amped Wireless Premium 25ft Outdoor WiFi Antenna Cable is a durable, low signal loss, outdoor WiFi antenna extension cable for use with outdoor WiFi antennas. The APC25EX is made from the highest quality material and craftsmanship to provide a durable (designed to last over 20 years outdoors), weatherproof cable that allows your wireless device and antenna to perform at the highest levels.

How it Works:

The Premium Outdoor WiFi Cable provides a reliable and durable connection between your wireless device and your antenna for maximum signal strength and performance.

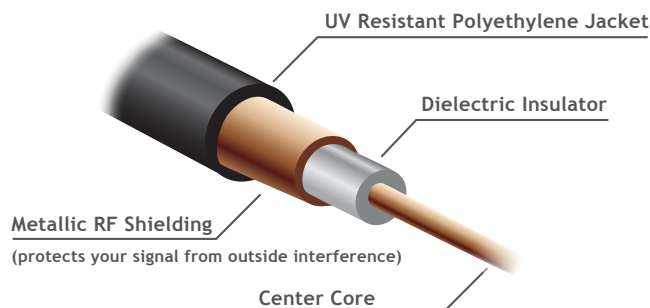

* The wireless device, jumper cable, surge protector, and outdoor antenna are not included and must be purchased separately.

Amped Wireless Technology

Premium Quality Outdoor Cable

The Premium Outdoor WiFi Cable is made from the highest quality material and craftsmanship to provide a durable (designed to last over 20 years outdoor), weatherproof cable that allows your wireless device and antenna to perform at the highest levels.
