

High Power Wireless-N 600mW Gigabit Router

R10000G

The Amped Wireless High Power Wireless-N 600mW Gigabit Router provides long range, high performance wireless Internet access over extreme distances. The R10000G is equipped with advanced dual 600mW wireless amplifiers and detachable high gain antennas to provide up to 10,000 sq ft of high performance Wi-Fi coverage. The High Power Gigabit Router features a powerful 620MHz internal processor, five gigabit networking ports for blazing fast wired connections and MIMO Wi-Fi technology for ultra-fast wireless speeds. The High Power Gigabit Router is great for providing extreme range Wi-Fi coverage and ultra-fast wired connections for large homes (and backyards), and multi-floor offices or warehouses.

RANGE BOOST
1X 2X 3X

MORE POWER = MORE RANGE

GREAT FOR

LARGE HOMES

OFFICES

Key Features

Extreme Range

Provide wireless internet access over large areas (up to 10,000 sq ft)

Ultra Powerful

Dual 2.4GHz amplifiers and 5dBi antennas penetrate walls and eliminate Wi-Fi dead spots

Guest Networks

Create wireless networks for guests with restricted access to the Internet

Wi-Fi Coverage and Security

Adjust the amount of Wi-Fi coverage available. Supports WPS One-Touch Setup, WPA, WPA2

Parental / Security Features

Block websites, set schedules for wireless access and grant access to specific users

Prioritize Bandwidth (QoS)

Eliminate lag for games, VoIP and streaming

Gigabit Networking

Connect additional wired devices at blazing gigabit (1000M) speeds

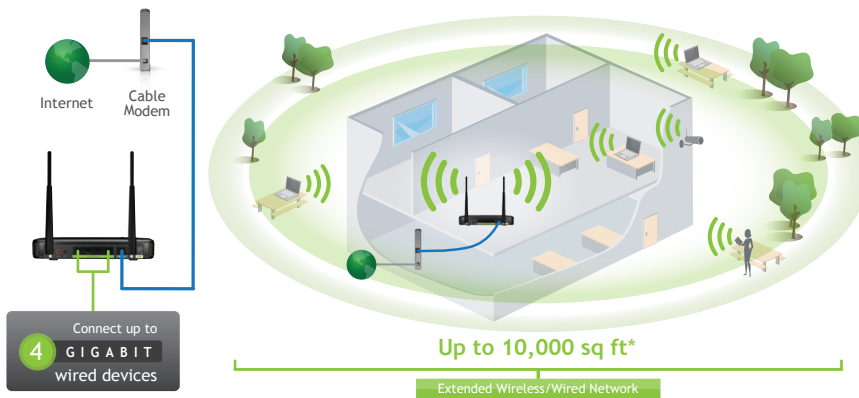

Powerful Processor

Powerful 620MHz internal processor for faster wired and wireless networking

How it Works:

The High Power Wireless-N 600mW Gigabit Router shares a broadband Internet connection with wired computers and delivers extreme wireless coverage up to 10,000 sq ft.*

Advanced Amped Technology:

High Power Dual Amplifiers and Antennas boost Wi-Fi performance

mW = Milliwatt (Output Power Measurement)
dBi = Decibels (Antenna Gain Measurement)

Smart Setup Wizard

- 1 Connect the High Power Router to your modem
- 2 Connect your computer to the High Power Router
- 3 Run the Smart Setup Wizard

Product Feature Set & Performance Comparison:

Technical Specifications:

Wireless Standard: 802.11n, 802.11b/g
 Frequency Band: 2.4GHz
 Processor Clock Speed: 620MHz
 Wireless Speed: 300Mbps (Rx), 300Mbps (Tx)
 Amplifier: Dual 2.4GHz Amplifiers
 Dual Low Noise Amplifiers
 Wireless Security: WEP, WPA, WPA2, WPA Mixed, WPS
 Wireless Access Scheduling: Specific day and time
 Wireless Coverage Control: 15% - 100% Output Power
 Guest Wireless Networks (Up to 4 Additional)
 Supports Wireless Multimedia (WMM)
 Smart Firewall (SPI, NAT)
 Parental Controls (Website Blocking)
 Users Access Control (MAC, IP Filtering)
 Quality of Service (QoS)
 Antennas:
 • 2 x Detachable High Gain Antennas
 • 2 x Reverse SMA Connectors
 Ports:
 • 1 x RJ-45 10/100/1000M WAN Port (Modem Port)
 • 4 x RJ-45 10/100/1000M LAN Ports (Local Ports)
 Mounting:
 • Wall, Stand or Desktop
 Warranty: 1 Year

Setup Requirements:

- Broadband (cable/DSL) modem with Ethernet port
- Computer with wired (RJ-45) or wireless (802.11b/g/n) adapter

Product Contents:

High Power Wireless-N 600mW Gigabit Router
 Two Detachable High Gain Antenna
 Two RJ-45 Ethernet Cable
 Setup Guide
 CD: User's Guide, Installation Video
 Stand for vertical mounting

Specifications are subject to change without notice.

* Range specifications are based on independent test results. Actual performance may vary due to differences in operating environments, building materials and wireless obstructions. Performance may increase or decrease over the stated specification. Wireless coverage claims are used only as a reference and are not guaranteed as each wireless network is uniquely different.
