Windows Software Update Download and Installation Instructions for the UA600EX

Follow the instructions below to properly update or install the drivers for the UA600EX High Power Wireless-N Pro 600mW USB Adapter.

- 1) Detach the UA600EX from your computer's USB ports.
- 2) Download the new drivers here:
http://www.ampedwireless.com/files/UA600EX_Windows_Driver.zip
- 3) A prompt will appear asking you to Open or Save the file. Click SAVE.

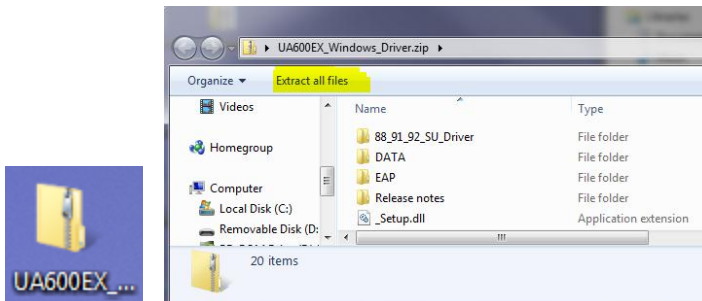

- 4) Another prompt will appear asking you where you wish to save the file. Select your desktop and click **SAVE**:

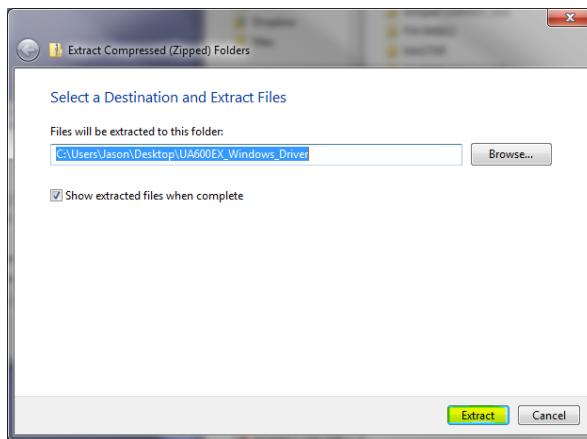

The file is 18MB so please be patient as the file downloads.

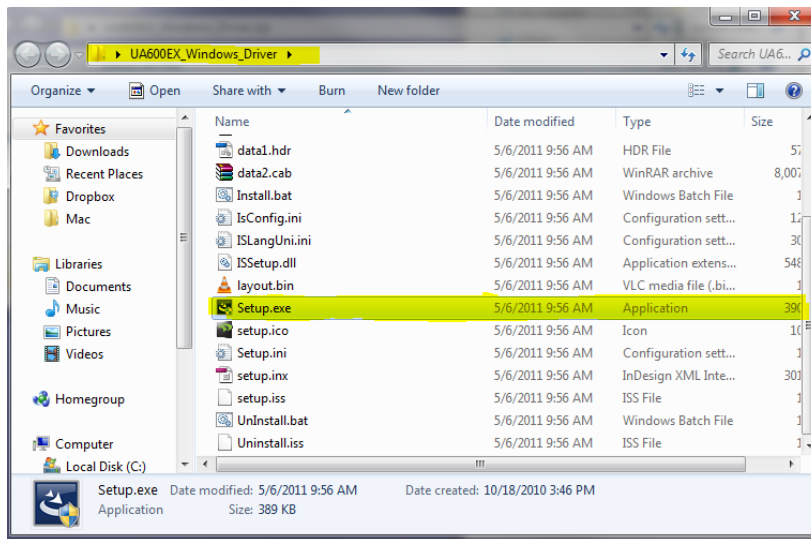

- 5) When the download finishes, locate the file on your desktop and double click it to extract the files. You will need an unzipping tool such as Winzip or WinRAR to do this (Windows 7 has unzipping capabilities built into the operating system and needs no additional software).

- 6) Windows will ask you to select a destination to extract the files to. Select your desktop and click **EXTRACT**:

- 7) Open the folder where the files have extracted to and double click **SETUP.EXE** to install the updated drivers.

- 8) The driver installation will now begin. **DO NOT ATTACH THE UA600EX USB ADAPTER TO YOUR COMPUTER AT THIS POINT.** Follow the instructions on your screen to complete the installation. You will be prompted to restart your computer after the drivers have fully installed.
- 9) After your computer reboots, attach the UA600EX to your computer using the USB connectors. You may now enjoy the use of your UA600EX High Power Adapter.
